

TWISTII™

The torch with a twist

Twistii™ is a wrist torch that allows both hands to be free. Whether you are in a cupboard, under the stairs, in the loft, under the car bonnet, walking the dog, walking home from work or school a Twistii™ in your pocket, handbag, glove box or toolbox is always there to help light up your life.

Operating Instructions

The Twistii™ is operated by the button in the centre of the torch. Press once and the front and back lights are lit. Press again and the white lights only remain on. Press a third time and the front and back lights are in warning flash mode. Press once more and all lights are extinguished. The torch rotates through 360 degrees so you can aim light where it is required.

Snapband

The Twistii™ comes on a snapband that simply 'Snaps' onto your wrist or sleeve. It also allows Twistii™ to free-stand (if you curl both sides equally under the torch). It can also be attached above to offer down-lighting. A longer snapband is available to purchase on our website.

Charging

The Twistii™ has a residual charge, but we recommend charging (with the micro USB cable supplied) for 4 hours before using. The **Red** charge light indicator on the top of the torch will change colour to **Green** showing a full charge.

Battery life

We have tried to help the environment and save size too by using a rechargeable battery. A full charge should give you 60+ minutes front and back light, 90+ minutes white light only and 180+ minutes of flashing light.

Storage and safety

Please store your Twistii™ in a dry space at average room temperature. Cold and wet environments will affect battery life. The Twistii™ is waterproof and works in everyday weather situations. It is not to be used underwater. If your Twistii™ gets wet, please make sure it is completely dry before recharging. A good shake will help repel water.

Twistii has bright LED's. For your comfort, please do not shine directly into the eyes.

Contact

Feedback is always welcome. Please get in-touch via: hello@twistii.com

Not suitable for children under 3 years of age. To be used under the direct supervision of an adult.
